

Manuals You Need

4-9-2010

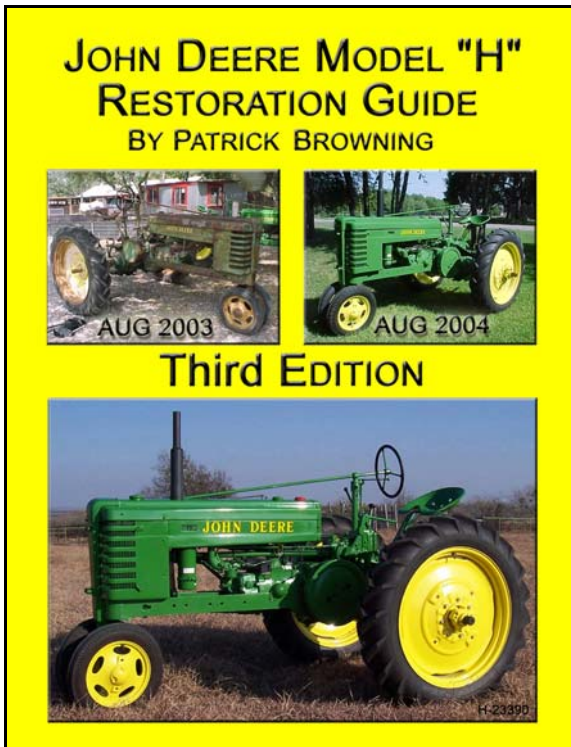

The List from which to choose (for John Deere "H"):

1. A Service Guide or Service Manual (There are no Deere Publications)
2. An Owners Manual; OMR 2011 from Deere, or DIR276 Vintage from jdhpubs.com
3. A Parts Catalog; PC 304 (from Deere), or complimentary with Restoration Guide Purchase
4. John Deere Model "H" Restoration Guide from jdhpubs.com
5. JD-H Carburetor Overhaul & Inspection Guide. Special note here is that carburetor overhaul is fully incorporated into current Restoration Guides (3rd Ed.) from jdhpubs.com

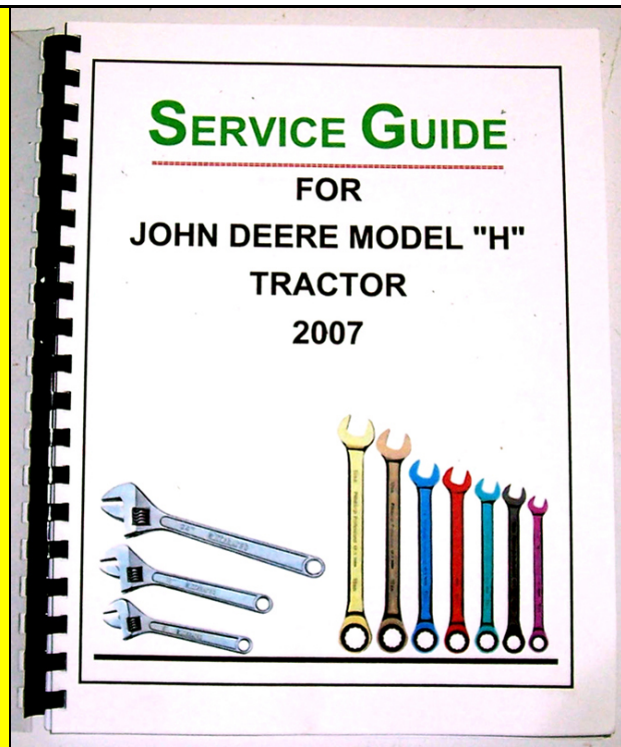

Notes:

1. There is no full-tractor service manual for the JD-H from Deere Publications. But you have two choices to select from.
 - a. There is the JD-4 (From PRIMEDIA, Inc) which is a Consolidated Shop Service Manual dealing with several Models. You find the area of interest and then dig out that part pertaining to the Model "H" tractor. Sources include your local JD Ag Dealer, eBay and most after-market parts sellers.
 - b. The other (preferred book) is a **John Deere Model "H" Service Guide**, a service manual with added helps & tips to guide the way, and is dedicated to the "H" tractor. There is no weeding out of "H" applicable data from among data for other models. Source is www.jdhpubs.com, or by calling (386) 624-7916, or (830) 627-0430. This is also the source for the JD-H Restoration Guide and Carburetor Overhaul & Inspection Guides. Visit the website for more information.
2. A multitude of references will indicate to you that SM 2000 is THE service manual for your tractor when, in fact, SM 2000 is a specialty technical manual which does not cover much of ANY tractor. It has four sections, and its strong point is the section dealing with electrical systems for JD tractors & engines. Don't buy thinking it is THE service manual for your JD-H.
3. For Deere Publications, the one steady source for Deere Pubs **(800) 522-7448**; hard copy or on CD. JD Ag Dealers are another, along with (perhaps) your after-market or used parts supplier.
4. The **John Deere Model "H" Restoration Guide**, was composed by a dozen authors, and includes data garnered from Sales Brochures, Field Service Bulletins, Old Deere Publications now no longer available, and years upon years of experience with this model tractor.
5. The **John Deere Model "H" Carburetor Overhaul & Inspection Guide** was prepared especially for this tractor based on the enormous amount of questions appearing on the Internet talk forums. It was very interesting to learn of the similarities between those carburetor anomalies reported by "H" owners to those reported by owners of other models using single barrel induction carburetors. Thus, this Carb Book will be useful to anyone dealing with carburetor on two cylinder John Deere Lettered Series tractors.

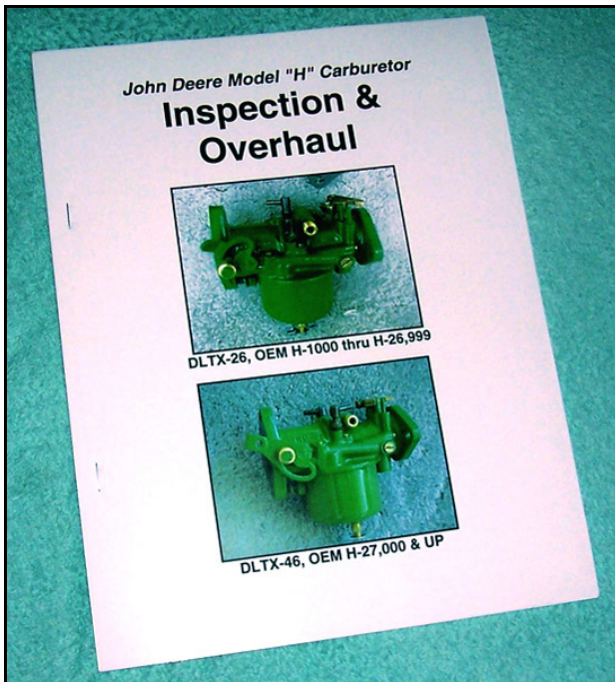

All four of these (below) are available from jdhpubs.com

John Deere Model "H" Restoration Guide

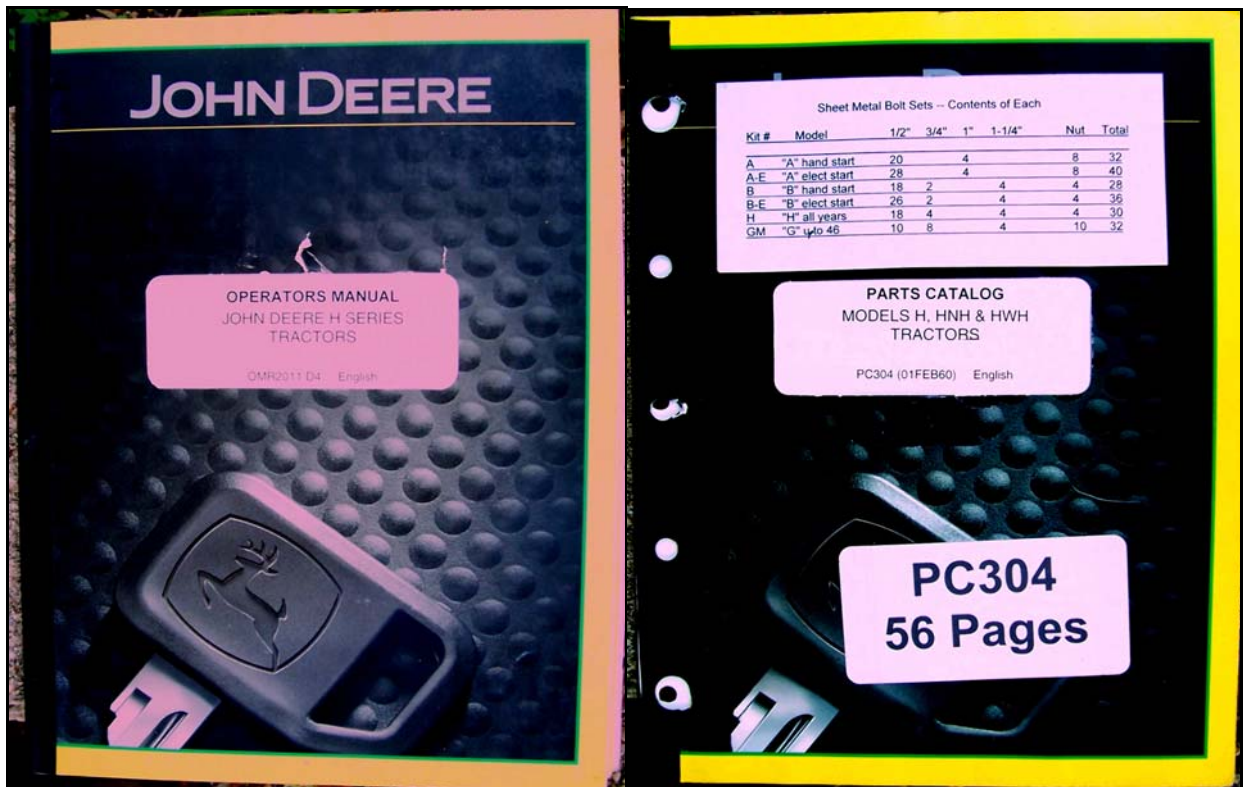

John Deere Model "H" Service Guide

Carburetor Overhaul & Insp Guide

DIR276 Instructions & Parts List (IPL)
(Vintage Owner's Manual)

OMR2011 Operator's Manual

PC304 Parts Catalog

~~ Both are available from Deere Publications, 800-522-7448 ~~

Note:

While supplies last, PC304 parts catalog comes to you as a gift when you purchase the John Deere "H" Restoration Guide.
