Other Needs

Parts, New or Used -- I can save you money on a wide range of your tractor needs. My sources include major places of business such as Steiner Tractor Parts and Heartland Tractor Parts plus a wide range of used parts suppliers. I am a supplier and a customer to many of these businesses. And so whether its new parts, used ones, or even accessories and supplies (such as Black Tire Paint) not listed above, all you have to lose is the time & effort of an email -- in learning if you can save by shopping with me.

Not Just John Deere -- I think I can save you money on new replacement parts for a wide variety of tractors, not just Model "H" John Deere tractors! Write me with tractor make, model and serial number – and with part-number specific data and let me see what I can do – consider it a bid, or an offering!

I Must Save you 10% -- If I can't save you at least 10% -- I will gladly back out of the way; and generally still point you in a direction where at least you obtain what is believed to be the best deal around – no fees and no questions!

The Service of Finding Things -- For "H" Tractors, I serve as a finder and a broker for items such as a hood or wheels; this service rendered in exchange for 10% of invoice. And so if you have a need, shoot me an email being specific with your "H" Tractor's serial number, and the part-number(s) of the item(s) you seek. I will answer & then you decide!

Internet Photography – When it comes to used parts like hoods & wheels, one man's "serviceable" may indeed be another man's "junk". Therefore, when seeking to fill an order for such items, I rely heavily on an abundance of clear, revealing photographs which are (obviously) to also be shared with a prospective buyer. I even arrange telephone contact as needed to be sure the transaction is on the upside. ++++
